

This week, I Mainly focus on Coding the boundary project:

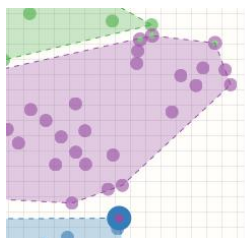

Interaction to select spatial units which satisfy the specific condition.

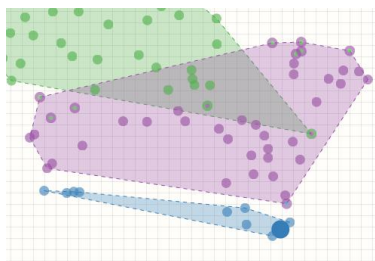

Robustness River: Interaction, Axis, TSNE plot and fix 2 bugs

Tsne visual encoding

Highlight in TSNE

Reading proposal

Reading a proposal about visual analysis for predictive.(with yafeng and Micheal)

投稿计划：

与 ross 开会， 决定将边界文章投到 infovis。提前完成后， 与 Micheal 合作其他项目。

Next week:

Coding the probability in boundary project.
